£9 Million Funding for EV Charging

A new funding scheme worth £9 million has been announced, effective from 1st September 2014.

The scheme will pay for up to 75% of the cost of installing a domestic charging point., similar to the old grant which finished at the end of June.

EVs for all Government Fleets

The UK government is to lead by example, with all its fleets to include plug-in cars and vans.

Cars and vans will be recommended on a like-for-like basis.

Charging points will be installed to provide infrastructure support for the EVs.
